Subject: Interruption to Email from Outside the County on Friday, June 26

On Friday afternoon, June 26 at about 2:30 pm, our email system experienced an outage. Email from **outside the county** was held in queue and was unable to be forwarded to our PCs. DoIT was able to resolve the problem at about 5:35 pm. We believe the bulk of email from outside the county was forwarded when the problem was resolved but a small number were likely impacted. If you were waiting for an email from someone outside the county and you have not received it, you may want to check with the sender.
